STEVEN LANTZ

SOFTWARE ENGINEER

STEVEN.LANTZ@HEPCATMEDIA.COM – 336-337-7658

OBJECTIVE

To find a Software Engineering role at a company using a variety of technologies to achieve their goals, in an environment where I can continue to grow my skill set.

SKILLS

.NET, RESTful Services, SOAP Services, MVC, ASP.NET, XML, HTML, JavaScript, SQL, Oracle, Visual Studio, Visio, MS-SQL, XAML, Xamarin, Ariba, .NET Core, Full Stack Development, JSON, AWS exposure.

EXPERIENCE

SR. SOFTWARE ENGINEER • FIFTHTHEORY, LLC • JAN 2019 – PRESENT

Full Stack Development of Client/Internal facing web applications and RESTful, as well as SOAP, web services. Developing primarily in Microsoft Visual Studio .NET technologies with an Oracle database, LAMP stack development, and mobile app development using Xamarin for iOS and Android.

SR. SOFTWARE ENGINEER • GENERAL DYNAMICS INFORMATION TECHNOLOGY • MAY 2001 – JANUARY 2019

Full Stack Development of Client/Internal facing web applications and RESTful, as well as SOAP, web services. Developing primarily in Microsoft Visual Studio .NET technologies with an Oracle database.

E-LEARNING DEVELOPER – SIGNATURE CONSULTANTS • NOVEMBER 2000 – MAY 2001

Developed e-learning solutions using web-based technologies such as SCORM, HTML, JavaScript, CSS. Utilized back-end technologies such as JSP, Classic ASP and MS-SQL Database. Built SCORM Certified web training (HTML, JavaScript, CSS) for pharmaceutical companies like Bayer, GlaxoSmithKline and Pfizer.

WEB DEVELOPMENT LEAD • BA PORT • JANUARY 2000 – NOVEMBER 2000

Managed the Web Development team in both the U.S. and India to develop a web-based small business accounting application partnered with Dell Small Business. It used HTML, IE 5.5 specific features, COM objects and MS-SQL. Managed team deadlines and project tasks. Lead daily Scrum and Defect Triage meetings to manage daily workload and priorities.

WEB DEVELOPER • TRADESTATION SECURITIES • APRIL 1997 – JANUARY 2000

Responsibilities were with the development and maintenance of the company web site including an extensive customer support component. Built Classic ASP and MS-SQL customer facing support website for both the stock trading application and the options analysis tools application.

SOFTWARE ENGINEER

STEVEN.LANTZ@HEPCATMEDIA.COM - 336-337-7658

INTERNET PROGRAM MANAGER • PCQUOTE, INC • APRIL 1994 – MARCH 1997

Designed web-based applications and managed the Internet development of a stock quote data provider. Used HTML and CGI-BIN objects written in C++ to create MarketSmart which was the first real-time stock quote system available to the public on the internet. Managed the integration of the ASE, PSE, NYSE to receive web-based data feeds for integrity testing.

EDUCATION

BA IN FINANCE • COLLEGE OF ST. FRANCIS

VOLUNTEER EXPERIENCE OR LEADERSHIP

I have served on several local government entities. I was the Chairperson of the Historic Preservation Commission of Oak Ridge, NC. I further served as a commission member of that group and on the Beautification Commission of Oak Ridge, NC.
